UTE CABIN KING CLASS

King Size Bed

The Ultimate Luxurious Slide-On Camper

Introducing the new 2026 model Ute Cabin King Class designed for 4 door double cab utes with Tubs or Trays.

The premium slide-on camper designed for those who refuse to compromise. Built with durability, comfort, and innovation, the King Class is your ultimate adventure companion.

UTE CABIN QUEEN CLASS

Queen Size Bed

Introducing the new 2026 Model Ute Cabin Queen Class

Including the same quality build and features as the King Class but this versatile slide-on ute camper is designed for 2 door Space Cab and 2 door Single Cab Utes with Tubs or Trays. Featuring a larger living area, queen size bed and a spacious 95 lt fridge, larger kitchen, more cupboard space and bench space setting it apart from the King Class.

The all-new 2026 Stealth Gen 2 is a lightweight, aerodynamic slide-on ute camper designed for travellers who want maximum versatility without the bulk of traditional campers. With a dry weight of only approximately 580kg, the Stealth delivers impressive fuel efficiency while still offering a spacious and comfortable interior thanks to its innovative electric pop-top roof design.

Built on a strong aluminium frame with a durable fibreglass body, the Stealth is engineered for tough Australian conditions while maintaining a sleek, futuristic profile. Inside, the smart layout includes comfortable seating, a large king-size bed, generous ventilation with insect screens, practical storage solutions, and a fully equipped kitchen featuring an induction cooktop, microwave/grill oven, refrigerator, hot water system, and extendable shower.

Designed for off-grid adventures, the Stealth comes equipped with an EcoFlow Delta power system, solar compatibility, pressurised water system, cassette toilet, dual ventilation fans, and optional upgrades including larger battery systems, solar panels, air conditioning, and dry-flush toilet systems.

Exterior features include heavy-duty recovery tracks, LED lighting, awning, aluminium rear steps, and optional electric loading legs for effortless setup. Compatible with most 2-door and 4-door utes, the Stealth Gen 2 combines lightweight practicality, modern comfort, and rugged durability in one compact adventure-ready camper.

UPGRADE OPTIONS

With everything already included in the Ute Cabin price, you have just four additional upgrades to consider:

- 1. EcoFlow Independence Kit:** Travel off grid and live for free. Explore remote areas confidently
- 2. Solar Panels Selection:** Customise your solar power supply from 100 to 1,200 watts
- 3. Electric Jack Legs Set:** Detach your Ute Cabin from your ute by remote control in a mere 8 minutes
- 4. Fastgun Turnbuckle Set:** Effortlessly remove the turnbuckles in 4 seconds without the need for tools

ECOFLOW INDEPENDENCE KIT

\$13,950 Factory Fitted

World's first integrated, plug-and-play power solution designed especially for tiny homes & RVs.
